Project Information Meeting

**Route 252
Jefferson Road
Reconstruction
Town of Henrietta
Monroe County**

Description

The New York State Department of Transportation has begun work on a \$15.6 million project to reconstruct and improve Jefferson Rd (Route 252) and East Henrietta Rd (Route 15A) in the Town of Henrietta, Monroe County.

Work on Jefferson Road extends from Marketplace Drive (just east of Hylan Drive) to Ridgeland Road (just east of I-390). Work on East Henrietta Rd begins at the bridge over I-390 (Exit 14) and extends north to Jarley Rd.

The purpose of the project is to improve safety and reduce traffic congestion by resurfacing and widening the highway pavement, adding turn lanes to improve traffic flow at intersections, and providing sidewalks and bicycle lanes throughout the project.

The project is scheduled for completion by November 2011.

Please remember to plan extra time to safely drive through the construction area.

Traffic During Construction

Jefferson Road—In late March or early April the travel and turn lanes on Jefferson Road will be narrowed and shifted to the south side of the road to allow new highway drainage, curb and pavement to be placed on the north side of the road.

East Henrietta Road—At the same time, lanes on East Henrietta Road will also be narrowed and shifted to the west side of the road to allow construction on the east side.

Once new curb, pavement and sidewalks have been constructed, traffic will be shifted again to allow the other side to be completed.

After both sides have been widened the raised medians will be installed.

There will be some daytime lane closures but they will generally be limited to non-rush hour times. It is expected that nighttime construction with lane closures will also be required.

Driveway Access

Driveway access will be affected during construction. At least one driveway will be maintained to all commercial properties during construction.

Accessibility

The meeting place is accessible to people with disabilities. Hearing impaired, or need another accommodation? **If so, please call or email us (see below) by March 2nd to arrange for a sign language interpreter or other specialist.**
